

- small molecule metabolic process
- carboxylic acid metabolic process
- ribonucleoside monophosphate metabolic process
- tRNA aminoacylation for protein translation
- S-adenosylmethionine metabolic process
- AMP metabolic process
- one-carbon metabolic process
- 5-phosphoribose 1-diphosphate biosynthetic process
- porphyrin-containing compound biosynthetic process
- amine biosynthetic process
- ergosterol biosynthetic process
- aromatic amino acid family metabolic process
- branched-chain amino acid biosynthetic process
- nucleoside bisphosphate metabolic process
